Make a Difference in Your Patients’ Lives

If you’ve got a mind for medicine and a heart for healing, our accredited Medical Assisting Diploma could be just what you need to help start your journey toward a long and successful career in healthcare. In as few as 12 months, you’ll learn to provide hands-on patient care working as part of a healthcare team.¹

Gain Key Skills

You’ll gain a solid understanding of medical terminology, anatomy, pathology and basic concepts of pharmacology and psychology. You’ll be tasked with important procedures, like measuring vital signs, administering immunizations and performing phlebotomy (drawing blood). You will also learn how to:

• Support clinic administration and management
• Administer therapeutic injections and vaccinations
• Perform in-house clinical lab testing and lab specimen collection
• Perform EKGs, spirometry and audimetry
• Assist physicians with patient care in a variety of in-office procedures
• Perform patient data entry and charting

Upon graduation, you will be prepared to take the industry standard in medical assisting certification, the Certified Medical Assistant (CMA) exam.²

Real-World Experience

During your clinical externship, you’ll gain real-world work experience while learning to:

• Care for patients one-on-one
• Perform medical procedures
• Gather patient information
• Help doctors stay organized

Certification Exam Preparation

Upon graduation, you will be prepared to take the industry standard in medical assisting certification, the Certified Medical Assistant (CMA) exam.²
