Help Advance Your Nursing Career

Developed for current registered nurses (RN), our online Registered Nurse to Bachelor of Science in Nursing (RN to BSN) entrance option is a post-licensure program designed to help you succeed and advance in your nursing career. Courses are flexible and available completely online, allowing you to earn your degree in as few as 12 months while continuing to work.*

Gain Key Skills

- **Leadership:** Acquire management and leadership skills through in-depth course work and practicum experiences.
- **Evidence-Based Practice and Treatment:** Study the use of evidence-based practice issues. Search and critique published research. And propose creative, innovative and evidence-based solutions to clinical practice problems.
- **QSEN Competencies:** Understand current quality and safety issues in healthcare as well as the guidelines and systems impacting healthcare agencies.
- **Management of Information and Communication:** Establish a foundational understanding of nursing informatics to improve performance, diagnosis and patient care in your workplace.

Flexible Learning Options

To offer a more flexible schedule and help you save money, we offer Flex Choice®—an option that allows you to combine traditional courses and optional self-directed assessments in order for you to earn your degree with more flexibility and affordability.

Accreditation

The Bachelor of Science in Nursing degree program at Rasmussen College is accredited by:

**Commission on Collegiate Nursing Education**
655 K Street, NW, Suite 750
Washington, DC 20001
202-463-6930
www.aacnnursing.org/CCNE

What to Expect From Our RN to BSN Entrance Option

From day one of your nursing program, your courses will pertain directly to your career. Small and immersive online classes are taught by nurse faculty with firsthand experience whose unique insight sparks discussion, debate and questions that allow you to learn in an engaging environment.

* Completion time is dependent on transfer credits accepted and courses completed each term. See rasmussen.edu/SID for information about educational debt, earnings, and completion rates.
Your Nursing Career Path

Every facet of this program—from the faculty and the curriculum, to the personalized support systems—was designed with the explicit purpose of helping you launch and maintain a successful nursing career.

Career options as a registered nurse include specializations such as public health nurse, medical-surgical nurse, critical care nurse, and labor and delivery nurse. Work settings in this field range from hospitals and clinics to rehabilitation centers, long-term care facilities and other public, private and community settings.

To plan for your future, check out the career titles that coincide with our credentials and browse the growth and salary data projected by the Bureau of Labor Statistics.¹
