Make a Difference as an RN

In as few as 18 months you can launch an in-demand career that improves the lives of patients while letting you live out your passion.¹ With no wait list at many of our campuses, we accept and enroll nursing students in our Professional Nursing Associate’s degree (ADN) four times per year—so you can start helping patients sooner. There is no pre-nursing course work, and, if you choose, you can continue to advance your education through our CCNE-accredited RN to BSN program.²

Gain Key Skills

Our experienced faculty bring practical day-to-day applications into the classroom. With immersive, hands-on training in a variety of small class sizes and clinical settings, you will:

• Prepare for a variety of healthcare environments as you learn patient-focused skills
• Gain a well-rounded perspective of today’s healthcare industry in courses taught by experienced nursing faculty who provide firsthand insights
• Develop professional confidence and swift clinical decision-making skills to provide exceptional patient care

Flexible Learning Options

To offer a more flexible schedule and help you save money, we offer Flex Choice®—an option that allows you to combine traditional courses and optional self-directed assessments in order for you to earn your degree with more flexibility and affordability.

¹Completion time is dependent on transfer credits accepted and courses completed each term.
²The BSN degree program at Rasmussen College is accredited by the Commission on Collegiate Nursing Education (CCNE): 655 K Street, NW | Suite 750 Washington, DC 20001 | 202-463-6930 | www.aacnnursing.org/CCNE
Program availability varies by state and campus, please see the Rasmussen College catalog for details.
See rasmussen.edu/SID for information about educational debt, earnings, and completion rates.
Your Nursing Career Path

Every facet of this program—from the faculty and the curriculum, to the personalized support systems—was designed with the explicit purpose of helping you launch and maintain a successful nursing career.

Career options as a registered nurse include specializations such as medical-surgical nurse, critical care nurse, and labor and delivery nurse. Work settings in this field range from hospitals and clinics to rehabilitation centers, long-term care facilities and other public, private and community settings.

To plan for your future, check out the career titles that coincide with our credentials and browse the growth and salary data projected by the Bureau of Labor Statistics.
