Become a Valuable Member of an IT team

Prepare for a career needed in nearly every industry, by gaining skills in the fundamentals of IT. Our Information Technology Associate’s degree helps you develop the foundational skills to troubleshoot and resolve issues on multiple devices—and you’ll be prepared to provide quality technical assistance to users while employing resolution strategies and industry best practices. You’ll learn to communicate effectively, think critically and act ethically in a variety of professional contexts.

When you want to advance your education and gain valued management skills, you can seamlessly transfer your Associate’s degree credits into our Bachelor’s degree in IT Management. This online, accelerated Bachelor-Completer program provides you with the technical, analytical and business skills to help advance your career, leading and managing diverse teams and projects.

Gain Key Skills

Learn from highly qualified faculty with practical, in-field experience through virtual labs and simulations that are project-based and prepare you for the real-world with relevant applications. You’ll be prepared to:

• Document procedures and comply with relevant policies, regulation standards and ethical practices
• Value lifelong learning and transferable skills, staying current on emerging trends and earning certifications
• Provide value to an organization by supporting project management tasks and working as part of a team
• Troubleshoot and resolve issues with desktops, laptops and mobile devices, and provide quality end-user tech support

Flexible Learning Options

You can choose the learning format that best fits your lifestyle. The Associate’s and Bachelor’s degrees are offered with Flex Choice® which allows you to save time and money by combining traditional courses and self-directed assessments to earn your degree with more flexibility and affordability.

Certifications and Exams

Students at the Associate’s degree level are prepared for the following certification exams.

• CompTIA® A+ (parts 1 and 2)
• CompTIA Network+
• Microsoft® MSA Windows 10

Those in the IT Management Bachelor’s degree are academically prepared to sit for the CAPM, ITIL and Six Sigma® White Belt certification exams but must complete additional certification exam requirements prior to testing. Rasmussen College will reimburse you for your exam application fee.*

CompTIA is a registered trademark of CompTIA Properties, LLC. Microsoft is a registered trademarks of Microsoft Corporation. Six Sigma is a registered trademark of Motorola.

*Rasmussen College will reimburse the application fee for each first attempt of all of the industry certification exams for which you qualify to take. Should you need to take an exam more than once to receive a passing score, you will be responsible for all subsequent exam application fees.
